

SUPPLEMENTARY MATERIAL

First record of a piebald Bates's Slit-faced Bat, *Nycteris arge* (Chiroptera: Nycteridae) from Equatorial Guinea, Central Africa

Diogo F. Ferreira, Laura Torrent, Andreanna J. Welch, Jared D. Wolfe, Kristin Brzeski, Luke L. Powell

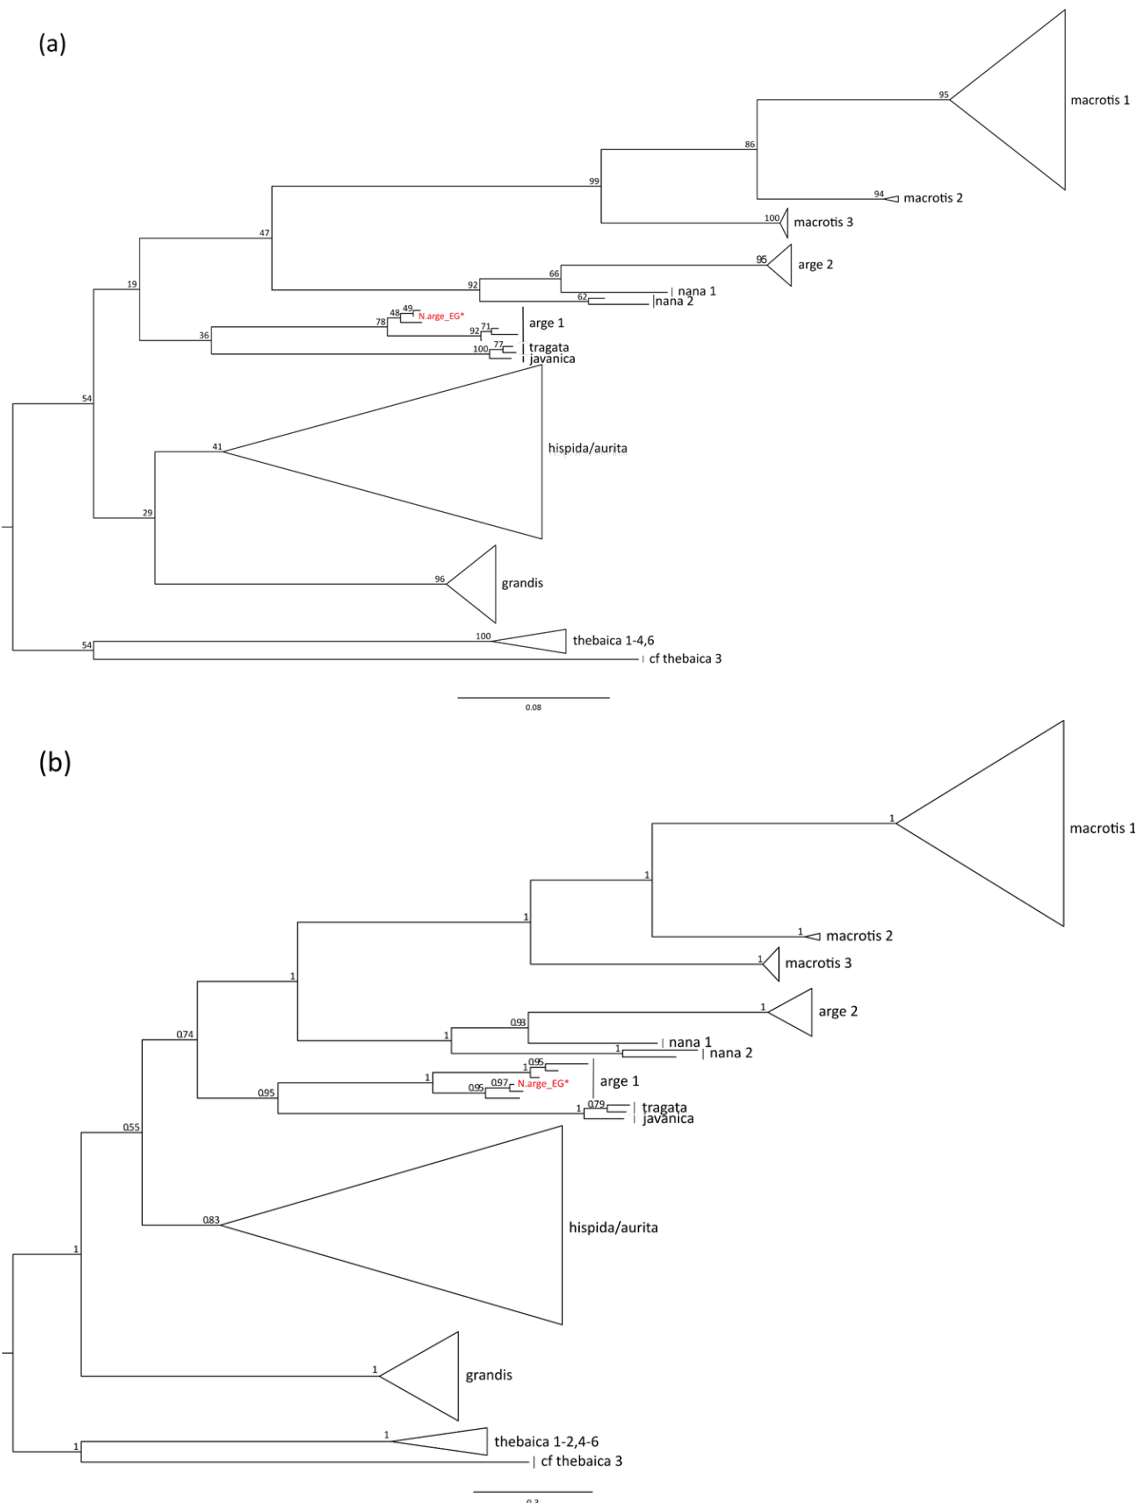

Fig. 1 - a) Maximum-likelihood and b) Bayesian phylogenetic trees based on partial cytochrome b DNA sequences. Values on nodes show Bootstrap values and Bayesian posterior probabilities. Piebald *Nycteris arge* captured in Equatorial Guinea (EG) is highlighted on red. See Demos et al (2019) for more information on samples used and *Nycteris* clades.
